THE ROUND ROOM THEN

The Round Room was built in 1821 to welcome King George IV to Dublin as no venue in the country was deemed grand enough to receive a King!

Michael Collins once posed as a janitor in The Round Room! With the British Army in pursuit, he took a brush from an attendant and began to sweep. Unrecognised, he escaped arrest.

In 1919, when Ireland reformed as a republic; the first Dáil Eireann convened under our spectacular circular roof.

100 years to the day on 21st January 2019, Dáil Eireann once again convened under our domed ceiling to mark this momentous day in Ireland's history.

THE ROUND ROOM NOW

Today we welcome a variety of different events such as gala dinners, award ceremonies, conferences, concerts, fashion shows & product launches to name a few.

Our unique starry dome is fitted with colour changing LED lights, a nod to the original ceiling which was painted to represent a night sky.

The grandeur of our timeless 19th century setting combined with cutting- edge technology guarantees a lasting impression on your guests.

Together with our in house partners we have created a synergy to create the most spectacular and immersive event space in Ireland.
